

The Erchonia® Lunula Laser is a revolutionary low-level laser device bringing new hope to people suffering from painful, discolored and disfigured toenails associated with nail fungus. An embarrassing and unsightly problem facing millions of people, it has typically been difficult to restore clear nails safely and effectively. Oral fungus medications are linked to serious long-term health risks, including liver damage, while other laser options are often painful.

The Lunula Advantage

- ▶ 100% safe
- ▶ Uses low-level laser light to stimulate the growth of strong, clear and healthy nails
- ▶ Takes only minutes to complete
- ▶ No downtime required

Stop suffering pain and embarrassment, find out how you can enjoy clear, healthy nails.

Healthy Clear Nails

Restore clear, strong and healthy nails, painlessly and effectively with the Lunula Laser.

ERCHONIA®

World Leader in Low Level Laser Technology

Enjoy healthy, clear toenails with **Lunula Laser**[®]

What is Onychomycosis?

Onychomycosis is a fungal infection of the toenails. It is a very common condition and is estimated to infect at least 10% of the worldwide population.

You may suffer from onychomycosis if you have one or more of the following symptoms:

- ▶ Thickened nail
- ▶ Crumbly or brittle nail
- ▶ Nail distorted in shape or separated
- ▶ Nail with no luster or shine
- ▶ A dark colored nail, caused by debris build-up

Not just an unattractive nuisance, onychomycosis can lead to permanent deformity, which may interfere with being able to wear shoes, walking, sports and other activities.

The Erchonia Lunula Laser can help you achieve clear-looking nails with simple, painless applications so you can enjoy healthy, beautiful feet again.

Before After

Embarrassing and sometimes painfully-disfiguring, toenail fungus is the most common foot ailment seen by podiatrists today. And until recently, sufferers of onychomycosis had few options for safely and effectively restoring strong, clear and healthy nails. Erchonia's new Lunula Laser is a low level laser that delivers proven results.

- ▶ **Grow clear and healthy toenails with safe laser therapy**
- ▶ **No pain, no downtime and no risk**
- ▶ **No more embarrassment about unsightly feet**

Stop suffering the discomfort of unsightly nail fungus. Erchonia Lunula Laser is the easy and convenient procedure that helps turn your discolored and disfigured nails into clearer, healthier looking nails.

The Erchonia Lunula Laser stimulates your immune system and blood flow to enable your nails to grow clear and healthy. The laser light passes through the nail without causing damage to it or the surrounding skin. Safe and effective, the Erchonia Lunula Laser poses none of the risk and harmful side effects of anti-fungal medications.

Plus, this convenient in-clinic procedure typically takes only minutes to perform, with absolutely no recovery time required.

The Erchonia Lunula Laser is a low-level laser in a box that effectively and safely restores clear, strong and healthy toenails.
